## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I, directed to the embodiment(s) shown in Fig. 1, (4, or 5, or 6), (7, or 8, or 9), (10 or 11 or 12).

Species II, directed to the embodiment(s) shown in Fig. 1, (4, or 5, or 6), (7, or 8, or 9), (10 or 11 or 12).

Species III, directed to the embodiment(s) shown in Fig. 1, (4, or 5, or 6), (7, or 8, or 9), (10 or 11 or 12).

Species IV, directed to the embodiment(s) shown in Figs. 2-3, and 4, 7, and 11 (appears to incorporate Figs. 4, 7, and 11 instead of a general collet, compression, and shank member).

Species V, directed to the embodiment(s) shown in Fig. 13

Species VI, directed to the embodiment(s) shown in Fig. 14.

Species VII, directed to the embodiment(s) shown in Fig. 15.

Species VIII, directed to the embodiment(s) shown in Fig. 16.

Species VIII, directed to the embodiment(s) shown in Fig. 17.

Species X, directed to the embodiment(s) shown in Fig. 18.

Species XI, directed to the embodiment(s) shown in Fig. 20-22.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
